- **Debt Issuance:** Completed a public debt offering of \$38.8 million 5.375% Notes due 2024, inclusive of the overallotment, for net proceeds of approximately \$37.5 million.

- **Distributions and Dividends:** Maintained our monthly common stock distribution of \$0.07 per share.

First Fiscal Quarter 2020 Results:

Interest income decreased by \$0.4 million, or 3.1%, driven primarily by the collection of past-due interest totaling \$0.9 million upon the exit of one portfolio company in the prior quarter. Excluding the impact of the prior quarter exit, interest income increased by \$0.5 million since the prior quarter, driven mainly by an increase in the weighted average principal balance of our interest-bearing investment portfolio, which was \$401.4 million for the three months ended December 31, 2019, compared to \$375.8 million for the three months ended September 30, 2019, an increase of \$25.6 million, or 6.8%. Other income decreased by \$0.2 million, or 21.9%, quarter over quarter primarily due to a decrease in success fees received. Total expenses decreased by 9.6% quarter over quarter, primarily due to an \$0.8 million decrease in dividend expense on mandatorily redeemable preferred stock and a \$0.4 million increase in the incentive fee credit granted by the Adviser, partially offset by a \$0.5 million increase in interest expense on long term debt.

Net Investment Income for the quarter ended December 31, 2019 was \$6.4 million, an increase of 0.8% as compared to the prior quarter, or \$0.21 per share.

The Net Increase in Net Assets Resulting from Operations was \$0.7 million, or \$0.02 per share for the quarter ended December 31, 2019, compared to \$5.4 million, or \$0.18 per share, for the quarter ended September 30, 2019. The current quarter decrease was driven by \$4.3 million in net portfolio depreciation and a \$1.4 million loss on extinguishment of debt recognized in connection with the voluntary redemption of our Series 2024 Term Preferred Stock in October 2019.

Subsequent Events: Subsequent to December 31, 2019, the following significant events occurred:

Comments from Gladstone Capital's President, Bob Marcotte: "We started fiscal 2020 on a strong note with a healthy level of net originations and a reduction in our financing costs on the quarter which combined to lift our core net interest income despite the pressure associated with the decline in LIBOR. Today, our modest leverage and the added flexibility of BDC leverage relief (with the recent preferred stock redemption), afford us the opportunity to continue to grow our investment portfolio and lift our net interest earnings in the coming quarters to enhance the returns to our shareholders."
